Description

Build and program your own ROBO X1 robot, and discover a world of engineering, coding and creativity! Simply program your robot using on-board push button commands without the need for a computer! Instruct your bot to navigate obstacle courses, complex mazes and much more! Create and invent as you customize ROBO X1 with your own LEGO building blocks. Learn and apply math skills. Even learn about electronic circuits and components!

From young engineers to more advanced users, ROBO X1 provides opportunities for tech learning and creative expression.
